

AI AGENTS FOR WHATSAPP, INSTAGRAM AND YOUR WEBSITE

Every customer answered. Every lead captured.

Six packages, one transparent price list. A one-time setup fee, a fixed monthly plan, and generous allowances — so you never ration a conversation.

24/7

Replies in the language each customer writes in

2–4 weeks

From scope sign-off to go-live

US\$299

Monthly plans from, setup from US\$750

Simple to understand. Fixed before you commit.

01

One-time setup

Discovery, configuration to your catalogue and rules, testing alongside your team, and go-live. Fixed in your quotation.

02

A fixed monthly plan

Your agent running around the clock, its allowance of conversations and voice-note minutes, analytics, the client portal, support and monthly tuning.

03

Only pay more if you grow

Beyond the allowance, each extra conversation is billed at your package's overage rate — shown live in your portal, never a surprise.

What counts as a conversation?

One customer conversation in a rolling 24-hour window — however many messages it takes. Twenty messages with one customer in an afternoon is one conversation, not twenty.

Voice notes are included

Every package includes voice-note minutes equal to a tenth of its conversation allowance. At a typical 30 seconds, that covers one voice note in every five conversations.

INCLUDED IN EVERY PACKAGE

- | | |
|--|---|
| <p> Configured to you
An AI agent set up on your catalogue, prices, FAQs, policies and tone of voice.</p> | <p> Around the clock
Replies any hour, in whatever language each customer writes in — tuned to your brand voice.</p> |
| <p> Voice notes included
WhatsApp voice notes understood and answered in text, up to your monthly minutes.</p> | <p> Handover to your team
Anything needing judgement goes to a person, with the conversation attached.</p> |
| <p> Leads captured
Every lead recorded with the full transcript, ready for follow-up.</p> | <p> Vantriq Pulse
Live analytics: leads, time to close, busiest hours, satisfaction, what the AI resolved.</p> |
| <p> Client portal & app
Invoices, usage, Pulse and your customer directory — in the browser or on Android.</p> | <p> Onboarding & tuning
Discovery, configuration, testing with you and go-live — then monthly tuning by our team.</p> |

Six packages. Pick by volume and reach.

Every allowance sits several times above what businesses of that size typically use, so a busy month is a conversation about growth — not a disputed invoice.

FROM ENTERPRISE

The whole stack on your own infrastructure for strict data-residency requirements. Same agents; nothing leaves your network.

Priced after an infrastructure review

Custom module

FROM SCALE

The one thing only your business does, built during onboarding — your name for it, your tone, your rules, your sign-off before it acts.

Priced on scope

Never reprices your package

Add-ons are priced on their own, on top of any package.

Add one any time

Setup is invoiced on order; the monthly fee starts the month it goes live.

Fixed in writing

Every add-on is in your quotation and scope sign-off before work starts.

Clear rates. Live in your portal.

- **Voice-note minutes** beyond the allowance: US\$0.02 a minute, measured from each recording.
- Vantriq Relay phone calls are not offered globally. Pakistan domestic incoming calls only.
- **One rate for every package:** US\$0.10 per extra conversation – running over always costs more than moving up.
- **Allowances are monthly** and do not roll over. Usage is shown live in your client portal.

Start with a package, add capabilities when they pay for themselves. Every figure is fixed in your written quotation.

— NOT INCLUDED IN THE PRICE

META & WHATSAPP FEES

Conversation and template fees charged by Meta or your provider, billed to your own account.

YOUR OWN SOFTWARE

Subscriptions to the CRM, booking, e-commerce or payment systems the agent connects to.

TAXES & BANK CHARGES

Sales tax and other levies at the rates in force on the invoice date; bank and payment charges.

WORK BEYOND SCOPE

Anything outside the signed scope is quoted separately as a change request before work starts.

Straightforward terms.

INVOICING

The setup fee is invoiced when you accept the quotation; configuration starts once it is paid. The monthly plan and any usage beyond the allowance are invoiced each billing month.

MONTH TO MONTH

The service runs month to month from go-live unless your agreement sets a minimum term. Either side can end it with one full billing month's written notice.

PRICE PROTECTION

Prices, allowances and overage rates change only for future periods, with at least 30 days' written notice — never for a period already invoiced.

YOUR DATA

Conversation history is kept in your portal for 12 months. When the service ends you can export your conversation, lead and customer records within 30 days.

— THE VALUE, IN DOLLARS

Answering one line around the clock

Round-the-clock cover is about 730 staffed hours a month. At the US federal minimum wage of \$7.25 an hour that is about \$5,300; at a typical customer-service wage of about \$19 an hour, about \$13,900 — before training, leave, turnover or overheads.
